Turbocharged 2.4L diesel engine runs smooth and efficient delivering 66 HP and 26% torque rise and meets Tier II non-road emission regulations.

Best in class visibility provides clear sight lines to the bucket or attachment, edge of tires, and out back, increasing confidence and productivity, even in close quarters.

This 6435 pound machine won't be pushed around. The tipping load is at 3,900 pounds with a bucket breakout of 5,500 pounds and a boom breakout 3100 pounds

Optimal 60/40 weight gives you the stability to handle heavy loads. Rated operating capacity of 1950 pounds (2300 pounds with weight) the 320 delivers plenty of productive punch.

Low center of gravity combined with a generous ground clearance of 9.6", these skid steers are productively agile.

Dump angle of 45 degrees enables buckets to empty completely and a 35 degree of rollback keeps the load in the bucket so it arrives at its intended designation

Service-Maintenance free battery, easy accessible fuel tank and engine dipstick, serpentine belt and hydraulic valves never need adjustment, sight gauges. How easy.

Comfort and convenience with its sculptured high back seat and an easy to read diagnostic monitor. Large backlit gauges and LED warning lights display vital operating information at a glance. Swithes and electrical connectors are sealed from moisture and dirt to help prevent corrosion
