Turbocharged 2.4L Power Tech 4024T diesel engine runs smooth and efficient delivering 66 HP and 26% torque rise and meets EPA and CARB emission non-road regulations

Best in class stability, breakout force, tractive effort, travel speed, and impressive tipping load capacities.

This 8305 pound machine delivers it all. The tipping load is at 6400 pounds with a bucket breakout of 6050 pounds and boom breakout at 3410 pounds.

Tractive effort of 8000 lbf and rated operating capacity of 2200 pounds @ 35% of Tipping load and 3200 pounds @ 50% of Tipping load the 322 is a productivity leader in its class.

Low center of gravity combined with a generous ground clearance of 9.6", these track loaders are productively agile.

Dump angle of 43 degrees enables buckets to empty completely and a 33 degree of rollback keeps the load in the bucket so it arrives at its intended designation

Easy clean up under carriage, easy accessible fuel tank and engine dipstick, serpentine belt and hydraulic valves never need adjustment, sight gauges and spin on filters. **How easy.**

Comfort and convenience with its sculptured high back seat and an easy to read diagnostic monitor. Large backlit gauges and LED warning lights display vital operating information at a glance. Swithes and electrical connectors are sealed from moisture and dirt to help prevent corrosion
