Turbocharged 2.4L Power Tech 5030tw diesel engine runs smooth and efficient delivering 82 HP and 31% torque rise and meets EPA and CARB emission non-road regulations

Best in class stability, breakout force, tractive effort, travel speed, and impressive tipping load capacities.

Want more this 10825 pound machine delivers the most. The tipping load is at 9200 pounds with a bucket breakout of 11600 pounds and boom breakout at 6650 pounds.

Tractive effort of 11500 lbf and rated operating capacity of 3200 pounds @ 35% of Tipping load and 4600 pounds @ 50% of Tipping load the 332 is a productivity leader in its class.

Low center of gravity combined with a generous ground clearance of 11", these track loaders are productively agile.

Dump angle of 45 degrees enables buckets to empty completely and a 35 degree of rollback keeps the load in the bucket so it arrives at its intended designation

Easy clean up under carriage, easy accessible fuel tank and engine dipstick, serpentine belt and hydraulic valves never need adjustment, sight gauges and spin on filters. **How easy.**

Comfort and convenience with its sculptured high back seat and an easy to read diagnostic monitor. Large backlit gauges and LED warning lights display vital operating information at a glance. Switches and electrical connectors are sealed from moisture and dirt to help prevent corrosion
