

Riding Tractor Attachments

Contact Coufal-Prater Equipment, LTD, to match the correct attachment for your John Deere Riding Tractor at tome@cpebry.com

Single-Bar Front Bumper (100 Series)

Features

- Made of 1 1/4-in. tubing for impact strength
- 4-bolt assembly
- Protects tractor against impacts and other obstacles
- Allows hood clearance for regular maintenance
- Fits all 100 Series tractors

Canopy

Features

- Shields operator from sun; approximately 700-sq. in of overhead coverage
- Quick and easy installation; slips into CargO Mount System™ ports—No tools needed
- Tough woven nylon construction for strength and durability
- Fits all 100 Series tractors

Riding Tractor Attachments

2-Bag, 6.5-Bushel Rear Bagger (100 Series)

Features

-
-
-
- Tapered dual-bag design makes it easy to dump clippings
- Open-weave polypropylene bags create better air flow, increased cut quality and clippings pickup
- CargO Mount System™ assembly just inserts into cargo mounts

6.5-Bushel Power Flow™ Rear Grass Bagger

Features

- Provides an efficient means for picking up leaves and grass clippings
- Dual bag system makes it easier to empty each bag since it is necessary to lift only half of the material at one time
- Installs on rear of tractor with one spring-loaded pin (no bolt-on bracket is needed)
- For normal bagging conditions, no blade change is needed
- For difficult bagging conditions (when grass is very heavy, long or wet), high-lift blades can be ordered
- Includes blower, discharge chute, and bagger assembly

Riding Tractor Attachments

CargO Mount™ Single Bucket Holder

Features

- Great for transporting mulch, plants or debris
- Holder bracket slips into the rear CargO mounts on all 100 Series models
- For use with any standard 5-gallon bucket; bucket not included
- Designed to carry up to 40 pounds of material

15-Gallon 15-Gallon Tow-Behind Sprayer

Features

- Large tires for easier towing
- 60-inch-wide boom for quick broadcast spraying
- Adjustable handgun with valve and 18-foot hose lets you spray up to 30 feet
- Stainless-steel spray tips
- SHURFlo™ pump for complete emptying of tank
- Dependable 50-mesh strainer at end of suction hose prevents clogging
- Electrical switch for turning sprayer on and off from seat

25-Gallon Tow-Behind Sprayer

Riding Tractor Attachments

Features

- Large tires for easier towing
- 90-inch-wide boom for quick broadcast spraying
- Adjustable handgun with valve, wand extension and 18-foot hose lets you spray up to 30 feet
- Stainless-steel spray tips
- SHURFlo™ pump for complete emptying of tank
- Dependable 50-mesh strainer at end of suction hose prevents clogging
- Electrical switch for turning sprayer on and off from seat

40-Gallon Tow-Behind Sprayer

Features

- 118-inch-wide boom for quick broadcast spraying
- Electrical switch for turning sprayer on and off from seat
- Adjustable handgun with valve and 18-foot hose lets you spray up to 30 feet
- Stainless-steel spray tips

3.5 cu. ft. Tow-Behind Broadcast Spreader

Riding Tractor Attachments

Features

- 175-lb. box capacity
- Handles a variety of necessary yard-care jobs, including even distribution of materials such as seed, fertilizer, insecticide, and salt
- Polyethylene hopper will not dent or rust
- All stainless steel interior hardware, shaft and agitator to prevent corrosion
- Large pneumatic turf tires ensure a positive drive and smooth operation
- High-speed, 6:1 reduction glass-filled nylon gears provide the widest spread pattern at the slowest speeds
- Fully enclosed gearbox eliminates downtime and maintenance
- Autoflow feature stops the flow of materials - automatically- to prevent burns
- Directional spread-pattern control feature provides positive shut-off along sidewalks and driveways
- Designed for residential use

80-lb. Pull-Type Spin Spreader

Features

- 80-lb. box capacity
- Handles a variety of necessary yard-care jobs, including even distribution of materials such as seed, fertilizer, insecticide, and salt
- Polyethylene hopper will not dent or rust
- Stainless steel is used for critical components like the hopper bottom plate, rate gate linkage, rotary agitator, and

Riding Tractor Attachments

connecting hardware for long life and trouble-free operation

- Spinners are made of high-impact plastic that will not crack or break
- 80-setting Dial-A-Matic™ knob allows operator to fine tune the rate application
- Large pneumatic tires and solid-steel axles ensure a positive drive and smooth operation
- Designed for residential use

110-lb. Pull-Type Spin Spreader

Features

- 110-lb. box capacity
- Handles a variety of necessary yard-care jobs, including even distribution of materials such as seed, fertilizer, insecticide, and salt
- Polyethylene hopper will not dent or rust
- Stainless steel hopper bottom plate, rate gate, rate gate linkage, spinner shaft, rotary agitator, axle, and connecting hardware resist rust and ensure long life and trouble-free operation
- Spinners are made of high-impact plastic that will not crack or break
- 80-setting Dial-A-Matic™ knob allows operator to fine tune the rate application
- Large pneumatic tires and solid-steel axles ensure a positive drive and smooth operation
- Heavy-duty die cast metal drive gears provides long life and trouble-free performance

Riding Tractor Attachments

- Designed for residential and commercial use

125-lb. Pull-Type Spin Spreader

Features

- 125-lb. box capacity
- Handles a variety of necessary yard-care jobs, including even distribution of materials such as seed, fertilizer, insecticide, and salt
- Polyethylene hopper will not dent or rust
- Stainless steel is used for critical components like the hopper bottom plate, rate gate linkage, rotary agitator, and connecting hardware for long life and trouble-free operation

- Designed for residential use

36-inch Lawn Roller

Features

- 18- by 36-inch roller for packing down new seed, sod, and mole ridges
- Large 42-gallon-capacity drum with rounded edges to prevent sod gouging on turns
- Rust-free, dent-free polyethylene drum
- No-tools-needed hookup to rear hitch plate

40-inch Aerator/Spreader

Riding Tractor Attachments

Features

- Versatile unit does two jobs in one, aerate your lawn and spread seed, lime, or fertilizer
- 132 steel tips for aerating up to 2-inches deep
- Spreader tray that accepts up to 75 pounds of material
- Weight tray that accepts up to 75 pounds of weight for more aggressive aerating
- Adjustable spreader flow control
- Pneumatic tires for outstanding maneuverability

40-inch Plug Aerator

Features

- 28 steel plugging tines for removing plugs up to 3 inches deep
- Weight tray that accepts up to 175 pounds of weight for improved plugging in compacted turf
- Individually serviceable plugging tines
- Pneumatic tires for outstanding maneuverability

40-inch Spiker Aerator

Riding Tractor Attachments

Features

- Weight tray that accepts up to 100 pounds of weight for more aggressive aeration
- 132 steel tine tips for aerating up to 2-inches deep
- 3.5-inch spike wheel spacing
- Pneumatic tires for outstanding maneuverability

40-inch Thatcherator

Features

- Versatile unit does two jobs in one, dethatch your lawn and aerate
- 3-position handle, to let you control aggressiveness of tines
- 20 heat-treated tines for scarifying lawn
- 8-inch wheels provide outstanding maneuverability

42-in. Lawn Sweeper

Features

- Designed to give superior brush-to-ground contact to prevent skipping and provide maximum performance for a clean path the first time through
- 42-in. clearing width
- 17-bu. capacity to make fast work of picking up material
- Convenient brush-height adjuster has eight positions for easy selection of the optimum sweeping height
- Hitch has seven positions to match up correctly with a variety of vehicles

Riding Tractor Attachments

- Large 12-in. x 3-in. wheels with bar tread have good gripping action to ensure positive brush rotation
- A unique storage feature allows the sweeper to collapse and be stored vertically to minimize storage space

10P Utility Cart

Features

-
- Compression-molded using CoPolymer Polypropylene with optimum thickness in all areas for superior strength and durability
- Solid one-piece 3/4-in. diameter axle for superior strength
- Sloped design allows easy and convenient emptying without the need to unlatch or remove tailgate
- Ribs molded into the bottom prevent a shovel from interfering with hardware
- Wide turf-tread pneumatic tires for excellent flotation and minimum rolling resistance

13 Utility Cart

Riding Tractor Attachments

Features

- Welded 16-gauge steel box construction
- Solid, one-piece 3/4-in. diameter axle for superior strength
- Rounded box sides for completely smooth inside, cleaner dumping
- Deluxe tailgate is hinged for easy emptying and can be quickly removed without tools, if desired
- No bolts or seams in bed to interfere with emptying
- Wide, turf-tread, pneumatic tires for excellent flotation and minimum rolling resistance

12-Volt Oscillating Fan

Features

- Mounts in either left or right CargO Mount™ hole
- Fan includes CargO Mount™ support so canopy and fan can be used at the same time
- Plugs into 12-volt power port
- Switch on fan housing can be set for oscillating or single-position operation
- Position of single-speed fan is fully adjustable for greatest operator comfort
- Unbreakable fan blade and housing
- Mounting hardware and complete instructions included
