The John Deere 5603 utility tractor with standard cab and 4 WD is perfect for hay baling, pasture cutting and loader work.

Features:

Powerful 99 HP 4 cylinder PowerTech turbocharged diesel engine. Strong enough to handle John Deere round or square balers, hay mowing and conditioning implements and batwing rotary cutters. It has an 82 HP PTO rating and also features a shiftable 540/540 Economy PTO --Standard

Easy change of direction with its 12 forward and 12 reverse synchronized PowerReverser transmission (convenient right hand transmission and SCV controls)--Standard

Four wheel drive gives you the added traction for loader or rotary cutter work over challenging ground--Standard

Comfortable cab with air conditioning and heat—Standard.

Easy service points and reliable components ensure your total cost of ownership of this tractor will remain low over its service life.

Optional quick hitch converts the 3-point hitch to fixed hooks and attaching points. All you need to do to attach most rear implements is backup and go.

Rugged and reliable Frontier rear blades, box blades and rotary tillers. Light work to heavy grading, manually adjustable rear blades provide greater control of blade angle and tilt position. Backfilling or leveling, the box blade rugged A frame is welded from heavy-duty plate steel and reinforced with structural supports to provide the durability tough jobs require.

Ease of use and maintenance, the Frontier disc harrow has front notched blades for cutting and mulching while the rear smooth blades slice and mix residue for a smooth finish.

Durability, backed with a 2 year limited warranty, the Frontier Rotary cutters feature a large gear box. A round blade pan plus a rugged slip clutch or half inch shear bolt protects your driveline and gearbox from sudden impacts.
